<p>Hello I was contacting you in regards to the order of protection I filed on 5/29/2020. This has never been heard and I have never received a court date or anything in this matter. I contacted Judge Zellweger on this matter in Aug and never received a response. If you could please help me or direct me in the right direction I would appreciate that it, thank you.</p> <p>Angela Freiner 314.405.4979</p>

<p>to my understanding, you filed this Petition for a protective order while you had an ongoing Motion to Modify pending or another matter pending with regard to the custody of your child. by the pending GAL who was much more involved with your family and the child. I would suggest that you seek to have your counsel get the final ruling on 20SL-PN02067.</p> <p>Colleen M. Hubble</p>

<p>I was self represented in my case. I have not recieved a response from the courts or the GAL. This case has never been heard. The only information I can obtain is on case net and it says disposition not disposed. It has you as the Gal on this case. What do I do?</p> <p>A. Freiner</p>

<p>When the case was transferred to be heard concurrently by Division 31 with the pending case, I no longer was the GAL. It is not the obligation of the GAL to provide you notices. There can not be two GALs working with the family and Venus Jackson was the GAI working with your family.</p> <p>There can not be two Judges making decisions, so it was transferred to be heard with the case.</p> <p>Attached is the order that transferred and set it to be heard with your case in July. I would suggest you consult your legal counsel.</p> <p>Colleen M. Hubble</p>

I do not have legal counsel and don't know how to seek out the answer to my question since the judge will not respond to me on this matter. I will keep looking until I have an answer. Thank you for your time.
