Judge,

I would like to know after 6 months of case number 20sl-pn02067 sitting without anybody acknowledge me when I have contacted you, your clerk, venus jackson, colleen Hubble, the domestic relations department, and the persiding judge on this matter. There was no notice of this court date. Nothing in the mail, no email, or my attorney being informed of this hearing. How do I show up for a court date I am unaware of in such an important issue that I filed? That does not make sense but much doesn't with the family court. I have to ask why now? Why did you decide to have a court date after 6 months of not hearing my order of protection? Is it to help along James Judy in his TRO and his modifacation of judgement? I demand a jury trial on any and all cases from here on out. You are not following your own rule law or the oath you have taken. Most everything that has taken place in this case has not been in accordance with the law.
