Hi Ricky,

I will like to know what is going on with case number 20sl- pn02067. I also would like to make sure my request for jury trial was recieved and the info regarding the 29th court date. I am confused to how a TRO was filed with the pending OP has not been heard. I also left a voice message in regards to these issues. A prompt response would be appreciated.

Good Morning,

In reference to your Order of Protection case, a notice was mailed out to you with the court date of 12/21/2020. Due to no response, the case was dismissed without prejudice. You do have the ability to refile if necessary. In reference to the request for jury trial it has been received and filed with the Court. In reference to the TRO, any party can file for one even if an Order of Protection is pending.
