to Chris, me ▾

Chris,

Please talk to Angela. She just got released from St. Louis County jail where she spent two days after her 15 daughter told the judge that she cannot live with her father because the father has been sexually molesting her and her step sister. The father is currently on probation after being convicted of domestic violence. The father's father is a registered sex offender and has direct access to the two teenaged granddaughters.

To punish the 15 year old the St. Louis County Court Judge Zellweger put Angela, the teen's mother in jail. The judge wanted to put the fifteen year old in jail as well but due to Covid the juvenile detention refused to jail the teenager. The court placed the teen in the custody of the St. Louis Children's Hospital where the doctors determined that the child was sexually molested. The St. Louis Children's hospital is refusing to comply with the Judge Zellweger's orders to release the child in the custody of the molester. Angela is available to talk to you. Her phone number is 314-405-4979. If you need me to walk you through the court papers and process I am happy to talk to you as well about Angela's situation.
