<p>Venus, What is going on with Dalilah? Why are they sending her to her Dads? Tell me again what your job IS in details? When we spoke the first time at the jail you said you would be able to file my paperwork. But you have never done that. Then you tell me there is no need to file when there is a huge need. You said it was because of my daughter's drug test yet I have never been shown a drug test. Have you? Jackson's motion doesn't mean anything but a motion. Is that how you fight for your clients? Tell them bs like that? They are trying to send Dalilah with her Dad. So where's the hotline call now? If they send her with him what is the point of Venus message. Everbody is just trying to fuck us over. So you gave me false information, you never filed for me like you told me you would. If you were a real attorney you would of been doing what it would of taken to get an emergency filing to lift this tro so I could bring my daughter home. So I ask you again. What is your job on this case? It just seems to me that you are as in place as the illusion of a lawyer in this kids for cash. A. Freiner</p>

<p>As stated before, once we receive a ruling on Ms. Jackson's Motion to Transfer, my representation ends. I wen over this, in detail, on our last conversation. Thank you, Venus V. Harry</p>

<p>As of today, it is my understanding that Dalilah is still in Children's Hospital. I have no access to her doctors. They are in contact with Ms. Jackson, as she is her advocate. THank you, Venus V. Harry</p>
