> The conference call you were requesting was sent to me 23 minutes before
the conference call was to take place, this is insufficient notice and
improper protocol. I did not receive this email until after the conference
had already started. You can not send improper notification to keep me from
being in attendance of the conference. 23 minutes did not allow me any time
to receive this notice and be prepared. I question the validity of the
statements made during the conference call due to the inadequate notice.
