Ms. Freiner,

Your message to the Court has come to me for reply. I understand that you would like to know what judge has been assigned to your cases, who the GAL is that has been assigned, and what dates/times are currently scheduled for your cases.

For case number 14SL-DR02617-02, Judge Zellweger recused herself from this case on 03/03/2121. The case has not yet been reassigned to a new judge.

Venus Jackson was the GAL on this case, but she filed a Motion to Withdraw on 03/04/2021, which has not yet been ruled on. Because there is not yet a new judge, there are no further current court dates scheduled at this time.

For case number 21SL-DR00544, Judge Zellweger recused herself from this case on 03/03/2121. The case has not yet been reassigned to a new judge.

There is no GAL on this case, and because there is not yet a new judge, there are no further current court dates scheduled at this time.

This is the latest information available for your cases. Please continue to check casenet for the latest updates on these, and other cases.

Thank you,

Hope Whitehead

Thank you for your response. When will a new judge be assigned? It has been a month now. I know it is usually assigned to the next judge on the list. What do I need to do to have these assigned? My child is missing because of the courts actions and needs to be found and brought home. Now due to no judge I am at a stand still. Time is of the essence. What has happened to my daughter by this court needs to be addressed and fixed. She deserves justice and to be a happy child like she was before we stepped in Judge Zellweger's courtroom. If all the judges are going to recuse themselves from this case then they need to do that so we can move forward and try to get back to a normal life.

The pandemic is just an excuse. It has has nothing to do with assigning me a judge. It is a simple process. The assign the next judge on the list. I'm not frustrated at all. I'm discussed with the shit show that our courthouse has become. It is an embarrassment to me and the rest of the community. When they wanted to send my child to her molester the pandemic didn't seem to slow down that process. So next time you want to blow smoke up my ass just save it. What type of case is 21sl-dr0054?  
 What is the ruling on this case? A phone call could of handled all these questions weeks ago. It shouldn't be this difficult to find out what is going on with my custody case. I have been looking on casenet trying to figure out the status of my case. What I found was Judge Zellweger has cancelled Court appearances that had already happened. How can that be? Where does that leave the decisions made from those court hearings? Are those orders nonexistent? I would like to know these answers as soon as possible. Like I said before my daughter is MISSING because of these canceled court dates and now they are supposedly are canceled court dates. Please help me understand what has happened here and why they would be canceled after the fact. The well fair of my child is at stake here.

I do not have an attorney. He has filed to be removed. It is the courts responsibility to take care of the next step in a reasonable time. If the court did the job correctly without the tomfoolery I would have known what is going on with my case weeks ago. This is my daughter I am talking about. She is MISSING because of orders made by this court. Now I want to know what is going on with my case. If you could please respond with the answers I would appreciate it. If you can't help me then please forward my questions to whoever can.

Good day.
