Kyle Woodward

My name is Angela Freiner, I am Dalilah Judy's Mother.

I called and spoke with Kyle Woodward on July 15, 2021, in regards to my daughter's medical record and the treatment plan you have for her. I sent the necessary paperwork he requested on July 16, 2021, via fax. I have a record of the fax being delivered and a zero response from your "boarding school". I have called your "boarding school" every day since the 16th with due diligence. Zero response. I have left multiple messages on every mailbox on your phone system. Zero response. Again I faxed the papers to your "boarding school" as I was instructed to do by your employer and son Kyle Woodward on July 19th. Zero response.

This has created a great concern for the safety and well-being of Dalilah.

After reading a 109-page class action lawsuit, reviewing websites created by people who just want to warn others about your "boarding school" and Triangle Cross Ranch, which is run by your Dad, Larry Schnieder. And the chats were in several Trinity Teen Savior chat groups, I found on the World Wide Web. I have come to the conclusion my daughter is not safe in your care.

After speaking with Brice Timmons I strongly believe it is in Dalilah's best interest that I take legal action to save my daughter from your "boarding School". Your silence speaks of grave danger.

I pray the actions being taken against Tritnity Child Labor Camp brings justice to the girls who have been in your care and you will never be allowed to open another child labor camp.
